CAVEAU DU VAL D'AMOUR
ARBOIS BLANC 2023

TECH SHEET

Sylvain Jacquot is based in Cramans, also home to domaines Rolet and Caverodes. A very modest guy with a tiny cellar under his house, his wines are celebrated all around the world for having that indescribable 'Jura magic'. They are made in extremely small quantities and it is only in recent years that he has started selling his wines to customers outside of France.

This Arbois blanc comes from a few organically farmed parcels around the village he inherited from his parents. The 2023 vintage was decent vintage for Jura, good quantities of grapes, not too much rain or disease pressure and a great balance to the wines.

GENERAL INFO

Country: France
